## Comrade KIM IL SUNG Receives

### Letters from Various Countries

Comrade Kim Il Sung received letters from various countries on the occasion of "month of anti-U.S. joint struggle for the withdrawal of the U.S. imperialist aggression army from South Korea."

**The message sent from Hamid Said, Chairman of the National Students' Union of the Republic of Iraq, wrote:**

The respected and beloved Leader Marshal Kim Il Sung, our National Students' Union of the Republic of Iraq regards it as an infinite pleasure and pride to send today this letter to you, the great, wise Leader, on the occasion of the 16th anniversary of the victory of the Korean people's great Fatherland Liberation War against the U.S. imperialist aggressors.

Under the correct and outstanding leadership of you, the great Leader, military strategist-genius and ever-victorious iron-willed brilliant commander, the heroic Korean people defeated the U.S. imperialist aggressors who had boasted of being the "strongest" in the world and were armed to the teeth, safeguarded honourably the freedom and independence of the fatherland and the revolutionary gains and won the immortal great victory in the three-year-long Fatherland Liberation War sixteen years ago.

The Korean people humbled the U.S. imperialists for the first time, put them on the downgrade, and thus encouraged greatly the revolutionary struggle of the oppressed and exploited peoples in the world and ushered in a new era of epochal turn in the anti-imperialist, anti-U.S. struggle.

We express surging indignation at the recent frantic machinations of the U.S. imperialists and the Pak Jung Hi puppet clique for aggression and new war against the Korean people and at their fascist repression and brutal, atrocious murder of the South Korean revolutionaries and patriots including the members of the United Revolutionary Party.

With no amount of desperation, however, can the U.S. imperialists and the Pak Jung Hi puppet clique be able to stem the revolutionary advance of the patriotic people who are fighting resolutely for the cause of justice.

There is no ground for the U.S. imperialists to remain in South Korea.

The U.S. imperialist aggressors must go back at once to their den taking all death-dealing weapons with them.

**The letter adopted at the mass meeting of Marianao district in Havana held to express solidarity with the Korean people said:**

We bitterly denounce the aggressive manoeuvres of the U.S. imperialists against the Democratic People's Republic of Korea.

We extend revolutionary solidarity to the Korean people in their struggle to drive out the Yankee invaders from Korea for good and achieve the independent, peaceful unification of their country.

We, together with the entire Cuban people, will be in the same trench with the Korean people forever in the future, no matter what aggression the U.S. imperialists may launch.

**The congratulatory telegram from the National Federation of Trade Unions of Workers and Office Employees of Lebanon said:**

The National Federation of Trade Unions of Workers and Office Employees of Lebanon respectfully extends warm congratulations to Comrade Kim Il Sung on the occasion of the 16th anniversary of the Korean truce which the Korean people attained by dealing fatal blows to the U.S. imperialists and forcing the enemies to their knees through their heroic struggle.

We wish the Korean people greater victory in the sacred struggle against the U.S. imperialist aggressors and their running dogs and for the independent unification of the fatherland.

**The message adopted at the Eritrean students' meeting held in Cairo wrote:**

We actively support the line of Korea's unification set forth by the respected and beloved Leader of the 40 million Korean people Comrade Kim Il Sung, a line of forcing the U.S. imperialist aggressive army out of South Korea and unifying the whole of Korea by the Korean people themselves.

We assure you that we will firmly stand for good together with Korean friends on the common fighting front against imperialism, upholding the strategy of anti-imperialist, anti-U.S. struggle set forth by the military strategist-genius Comrade Kim Il Sung.

We entire Eritrean students sincerely wish good health and a long life to Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, ever-victorious iron-willed brilliant commander, outstanding military strategist and one of the outstanding leaders of the international communist and working-class movements, for the unification of Korea and the ultimate victory of Korean revolution and the victory of world revolution.

### Fourth-Day Session of the International Conference on the Tasks of Journalists of Whole World in Their Fight against the Aggression of U.S. Imperialism

The fourth-day session of the International Conference on the Tasks of Journalists of the Whole World against the Aggression of U.S. Imperialism was held on September 21 at the Mansudae Assembly Hall in Pyongyang.

The conference attracting the attention of the whole world for its discussion of the most urgent questions facing mankind at present, was overflowing with the surging revolutionary zeal of the delegates from many countries and the attendants of the conference, who were deeply conscious of the demand of the present times when the revolutionary storm is raging and the lofty mission laid upon the journalists and the men of the press by the times. And the rostrum of the conference turned into a place of indicting and denouncing the crimes of the U.S. imperialist aggressors, the truculent enemy of mankind, and sentencing the enemy to death, and a place demonstrating the militant friendship and united might of the journalists and men of the press of the whole world in the anti-imperialist, anti-U.S. struggle.

In the morning session which was presided over by Ernesto Verra, Vice-President of the International Organization of Journalists, speeches of delegates continued.

An Byong Chol, representative of the revolutionary men of the press of South Korea, mounted the rostrum amid the enthusiastic applause of the attendants of the conference.

He had come to Pyongyang, the heart of the Korean revolution, some time ago at the invitation of the International Organization of Journalists, breaking through the strict guard of the enemy, from South Korea where a struggle is being fought against the barbarous colonial fascist rule of the U.S. imperialists. He was wrapped in emotion and excitement and burning hatred for the enemy.

Saying that South Korea reduced to a complete colony and military base of U.S. imperialism has become big barracks where huge military forces are amassed, he roundly exposed and denounced, citing concrete instances, the U.S. imperialists who frequently raise military exercise rackets everywhere in South Korea and ceaselessly perpetrate military provocations against the northern half of the Republic, while further tightening the military tie-up between the Pak Jung Hi puppet clique and the Japanese militarists with the sinister scheme to use the Japanese militarists as a shock-brigade in their new war of aggression in Korea and, furthermore, rig up an Asian "anti-communist" military alliance.

Referring to the fact that the U.S. imperialists deny the South Korean people their elementary democratic rights and bestially suppress them, he said: One cannot utter a word freely with his own mouth or write freely with his own pen. This is the very situation of South Korea today.

The Pak Jung Hi traitor who seized power by wielding bayonet put in his hands by the U.S. imperialists appeared on the scene as a more faithful stooge of the U.S. imperialists than any other successive puppets. He went on:

Our people's respected and beloved Leader Comrade Kim Il Sung taught us as follows:

**"The basic task of the South Korean revolution is to eliminate U.S. imperialist colonial domination, secure the democratic development of South Korean society and achieve the country's unification in concert with the socialist forces in the northern half".**

Upholding the strategic and tactical line of the South Korean revolution set forth by the Leader, the South Korean revolutionaries and entire people are now vigorously waging various forms of anti-U.S. national-salvation struggle including underground revolutionary activities and armed guerilla struggle in towns and villages, underground and in mountains.

The South Korean people and men of the press will never lower the banner of struggle, the banner of revolutionary violence until they drive out the U.S. imperialist aggressors, the source of all the misfortunes and sufferings of the South Korean people and inveterate enemy of the Korean people for more than a hundred years and knock down the Pak Jung Hi puppet clique, their stooges; they will never lower the revolutionary Red flag until the people become the masters of power and everyone leads a free and happy life, the speaker declared.

He evinced the conviction that the struggle of the South Korean people will surely emerge victorious so long as they have the great revolutionary ideas and the wise leadership of the respected and beloved Leader Comrade Kim Il Sung, have the revolutionary base of the northern half of the Republic and enjoy active support of the people in the northern half and militant encouragement of the revolutionary peoples of the whole world.

The day will surely come when we will inform the whole world of an emotion-charged mass rally held on the square of unification in the presence of the respected and beloved Leader Comrade Kim Il Sung, the South Korean representative said in conclusion.

His speech, a stern indictment against U.S. imperialism, deeply stirred the attendants and was interrupted many times by their applause.

When he finished his speech and descended from the rostrum, the delegates attending the conference warmly embraced him, tossed him shoulder-high and enthusiastically applauded him for twelve minutes, filling the conference hall with excitement and deep emotion.

# Comrade Kim Jong Suk—a Soldier Infinitely Loyal to the Leader and Strong-willed Woman Revolutionary

## On the Occasion of the 20th Anniversary of Her Death

Twenty years have passed since the death of Comrade Kim Jong Suk, the soldier infinitely loyal to the respected and beloved Leader Comrade Kim Il Sung, the strong-willed woman revolutionary and the proud daughter of the Korean people.

Comrade Kim Jong Suk was a sturdy woman revolutionary and ardent communist fighter grown and steeled under the personal care of the respected and beloved Leader Comrade Kim Il Sung, in the crucible of the anti-Japanese armed struggle.

On the occasion of the 20th anniversary of death of Comrade Kim Jong Suk, who fought throughout her life devotedly and single-heartedly for the fatherland and the people, for the future of women, along the path indicated by the respected and beloved Leader Comrade Kim Il Sung, the Korean people look back on her revolutionary life in a great adoration and renew their determination to be more faithful to the Leader and the Party modelling after her lofty revolutionary spirit.

Comrade Kim Jong Suk was born into a poor peasant family on December 24, 1919.

Bereft of her father in her childhood, she had to endure all sorts of sufferings, subjected to the harsh exploitation by the Japanese imperialist aggressors and their lackeys. On top of it, she lost even her mother and brothers at the hands of the enemy.

Through her experience in life she came to know clearly the contradictions existing in the society of those days. This infused her with a desire to fight against the enemy.

At the age of 13, she embarked on the road of the revolution led by Comrade Kim Il Sung.

Comrade Kim Il Sung, who started his revolutionary struggle since early years, with the destiny of the fatherland and the nation devolved upon him, in the darkest period of Japanese imperialist rule, threw a radiant light on the path for the Korean revolution to follow, and has led our people all along to a victory, standing personally in the van of the struggle.

Having summed up and made an analysis of the revolutionary situation created early in the 1930's and of the serious lessons drawn from the revolutionary movement in the preceding period, Comrade Kim Il Sung laid down the *Juche*-motivated lines of the Korean revolution with the armed struggle as its centre, according to his long-elaborate, far-reaching plan and organized and unfolded an energetic struggle to put them into practice.

It was precisely in those days, the autumn of 1931, that Comrade Jong Suk joined the Children's Corps, and she was immensely faithful to her revolutionary organizational life, with a firm conviction that the road of revolution shown by Comrade Kim Il Sung was the only way of overthrowing Japanese imperialism and achieving the independence of the fatherland and liberation of the people.

In 1933 she joined the Young Communist League. Working under the League's organization in a guerilla base, she did all she could to execute the revolutionary lines and policies set forth by Comrade Kim Il Sung.

In 1935 she joined in the Korean People's Revolutionary Army. From its first day she fought valiantly with a high sense of honour of being the anti-Japanese guerilla led by the respected and beloved Leader Comrade Kim Il Sung.

The year of 1936 was a year most significant for her whole life. That spring she had the honour of meeting the respected and beloved Leader Comrade Kim Il Sung whom she had adored so much, and was enrolled in the ranks of the main force of the Korean People's Revolutionary Army under his personal command.

Under the personal concern shown by Comrade Kim Il Sung she grew into "a-match-for-a-hundred" combatant, into an excellent political worker and a staunch communist fighter and fought with a fortitude to defend the Leader with her life and carry out the revolutionary lines and policies formulated by him.

Honoured with a member of the Communist Party in 1938, Comrade Kim Jong Suk performed a brilliant feat in the sacred revolutionary struggle to wipe out the Japanese imperialist aggressors and liberate the fatherland.

After liberation, too, Comrade Kim Jong Suk under the wise leadership of Comrade Kim Il Sung devoted her all to the cause of building a new, unified and independent democratic country. Particularly, she waged an energetic struggle to free women from the outdated customs and enlist them actively in all fields of the state and social life. At the same time she exerted every possible effort to bring the bereft children of the revolutionaries into the reliable successors to the revolution.

Comrade Kim Jong Suk who under the personal leadership of the respected and beloved Leader Comrade Kim Il Sung had fought with an inflexible resolution along the road shown by Comrade Kim Il Sung, to our sorrow, departed from us on September 22, 1949, at the age of 31, without seeing the national unification to which she had aspired so much.

Short as her life was, the ardent revolutionary spirit Comrade Kim Jong Suk had displayed throughout her life and the priceless revolutionary exploits she had performed will always live in our hearts and are a source of boundless encouragement to our people in their struggle.

The immeasurable loyalty to the Leader and the ardent love for the fatherland and the people—these are the loftiest traits that ran through her life.

Comrade Kim Jong Suk equipped herself thoroughly with the great revolutionary ideas of the Leader, first of all, through her tireless study, true to his teaching that **"Studying is the first and foremost task for the revolutionaries."**

With his teachings as a yardstick she correctly carried out his revolutionary lines and policies, orders and instructions.

She showed a staunch revolutionary spirit and fortitude as an ardent Communist in fulfilling her assigned tasks with a sense of responsibility.

Early in 1937 Comrade Kim Jong Suk was dispatched to a village called Dochon-ri near the Amrok River as a political worker at the direct instruction of Comrade Kim Il Sung. In spite of the enemy's strict watch, she went deep into the midst of villagers and rallied them closely around the Association for the Restoration of the Fatherland. Even when she was arrested while operating, she withstood all manner of tortures and never let out a secret of the revolutionary organization.

Half dead than alive with the enemy's brutal torture, she conveyed the following message to the revolutionary organization.

"Don't worry. Though I may be killed, the organization will live on. I send you two *won*, all my earthly possessions. Please add it to the fund of the organization."

Comrade Kim Jong Suk not only carried out the Leader's orders and instructions with staunch revolutionary spirit and fortitude and with a high sense of responsibility, but also educated her comrades-in-arms and helped them fulfil successfully their assignments.

More, she put up an uncompromising, determined struggle against a slightest phenomenon deviated from the great revolutionary ideas of Comrade Kim Il Sung.

To firmly defend Comrade Kim Il Sung politically and ideologically at any time and at any place and safeguard with her life the Headquarters of the revolution where Comrade Kim Il Sung was—this represented the loftiest revolutionary spirit and the most noble traits that added lustre to the revolutionary life of Comrade Kim Jong Suk.

In the winter of 1938 when the unit was on the arduous march, the women guerillas including Comrade Kim Jong Suk, the aged and sick persons were sent to the Chongbong secret camping ground in Changpai area.

At that time, Um Gwang Ho (he was a counter-revolutionary factionalist who had wormed his way into the revolutionary ranks) was in charge of all the affairs in the Chongbong secret camping ground. Discontented with the position he held, this rascal did not execute Comrade Commander's orders intentionally and his deeds were against the great revolutionary ideas of the Leader.

Immediately noticing his wrong doings, Comrade Kim Jong Suk waged the unbending, tireless struggle against him in defense of the great revolutionary ideas of the Leader.

Thanks to her principled struggle true colors of Um Gwang Ho was disclosed as a counter revolutionary and a stern punishment was meted out to him. And this resulted in strengthening unity and cohesion of the revolutionary ranks further still.

Comrade Kim Jong Suk not only thus defended the Leader politically and ideologically at all times, but also protected the Headquarters of the revolution at the risk of her life during hard-fought battles.

Here is a story. In a battle fought in the autumn of 1939, Comrade Kim Jong Suk screened Comrade Kim Il Sung with her body at the crucial moment and finished off the enemy, thereby defending the Leader.

Besides, she served as a model of the principled unity and revolutionary comradeship in her daily life.

Upholding the teaching of Comrade Kim Il Sung that **"The revolutionary criticism should be given to anyone, no matter whom, when he goes against the revolutionary organizational discipline and the revolutionary principles. But for this, it would be impossible to strengthen and develop our ranks into the steel-like ones and win a victory in the battles fought against the enemy,"** Comrade Kim Jong Suk got in touch with the revolutionary comrades on principles at all times.

It happened when her unit was making its way toward Mt. Naitou. One of the recruits lost his revolver, dumb-stricken in an encounter with the enemy. But he followed the marching-on ranks all the same.

Comrade Kim Jong Suk was the first to notice it. She persuaded him to rush back with her where they had been, and came back with the revolver, after all.

The recruit turned red out of the pricks of conscience, but pleaded with her to pass over his blunder. She, however, did not pass it over but convinced him, on the principles, that he should not get scared by his blunder but should be frank about it and willingly accept the other comrades' criticism, and that this alone would make him a fine revolutionary.

Bearing in mind the teaching of Comrade Kim Il Sung that the revolutionaries should maintain the principles and, at the same time, have a strong amicable spirit in mutual relations, Comrade Kim Jong Suk always held her comrades immensely dear and loved them.

She gave more thought to the affairs of the comrades than to her own, and took their joy as her own.

One evening she served out among her comrades even the meal set aside as hers, and retired to her bed without supper. She told her colleague as follows, out of a sheer happiness.

"Looking at the pleased faces of the comrades, I clean forget that I was hungry. Why, do you think one feel satiated only when one eats? If I can make our comrades so happy, I think I can go without meals... I feel very happy tonight."

Furthermore, Comrade Kim Jong Suk always displayed in her daily life such pure traits as peculiar to the Korean women—simplicity, modesty and courtesy.

This found expression not only in her life in the guerilla army but also in her life among the villagers as a political worker. She was always scanty of words, hard-working, held the elders in respect and loved children.

Thus, she won the respect and love of the people wherever she went and thus added lustre and beauty to her revolutionary life.

Through her revolutionary life, Comrade Kim Jong Suk, the strong-willed woman revolutionary, ardent Communist and the fine daughter our people had produced, showed us how those who make revolution should live and fight. She also showed us a truth of life that only when one is boundlessly and single-heartedly loyal to the Leader can he remain loyal to the fatherland and the people and enjoy an immense respect and love of the people.

The precious revolutionary feat, the lofty revolutionary spirit and the lofty revolutionary traits of Comrade Kim Jong Suk, who dedicated her life to the Leader, to the fatherland and the people, will live forever in our hearts and continue to inspire our people in their struggle.

The congratulatory speech made by Comrade Kim Il Sung, the great Leader of the 40 million Korean people and one of the outstanding leaders of the international communist and working-class movements, at the International Conference on the Tasks of Journalists of the Whole World in Their Fight against the Aggression of U.S. Imperialism is calling forth a great response among the attendants of the conference.

### Guide in Work and Life of Us Revolutionary Journalists

Angel Guera Cabrera, Editor-in-Chief of the **Juventud Rebelde** and member of the Cuban journalists delegation, said as follows:

At the current World Conference of Anti-U.S. Journalists, Comrade Kim Il Sung made a speech which serves as a guide in the work and life of us revolutionary journalists and is of great significance.

The revolutionary ideas of Comrade Kim Il Sung are the ideas we all journalists should follow.

He analysed the present situation concretely, logically and correctly and put forward important tasks to be carried out by the revolutionary journalists in future.

With a keen insight Comrade Kim Il Sung analysed the complex problems and new problems confronting the whole of mankind and clarified their solution.

As Comrade Kim Il Sung pointed out, no country in the world, big or small, is free from the menace of U.S. imperialist aggression. Peoples of all countries in the world must intensify their struggle against U.S. imperialism everywhere. Thus they must tear off the U.S. imperialists' limbs one by one.

I saw Comrade Kim Il Sung and had an honour of hearing his speech for the first time.

In his celebrated works and speeches, Comrade Kim Il Sung has elucidated the revolutionary, anti-imperialist stand and line of struggle on many occasions, and he clarified them this time again.

Socialism and national independence, peace and democracy cannot be attained without the struggle against U.S. imperialism, the ringleader of imperialism.

The main spearhead should be directed to U.S. imperialism and an uncompromising struggle be waged against it.

### His Speech Gives Me Fresh Strength

Were Olonde, Publicity Director of the Kenya People's Union, emphasised as follows:

At the current International Conference on the Tasks of Journalists of the Whole World in Their Fight against the Aggression of U.S. Imperialism, the esteemed Premier Kim Il Sung made a speech which serves as a programmatic guide for us.

At the current World Conference of Anti-U.S. Journalists Premier Kim Il Sung made an intelligent analysis of the present situation and taught in clear-cut terms what we should solve and how.

Every phrase and every clause of his speech contain many meanings and are quite easy to understand.

I've already heard much about him and read books on him. But I heard his speech directly this time and came to understand his great ideas more deeply. Now I feel fresh strength welling up in me.

He told about how the U.S. imperialists are running amuck for aggression, plunder and new war provocation everywhere in the world including Asia, Africa and Latin America and how they are meeting with the resistance of the world peoples.

The imperialists headed by the U.S. imperialists are sure to ruin and their days are numbered.

As Premier Kim Il Sung said, the downfall of imperialism will be further accelerated if we fight resolutely against the imperialists led by the U.S. imperialists in all parts of the world by uniting the anti-imperialist revolutionary forces.

All of us journalists and pressmen should expose the U.S. imperialist policy of aggression and war in an all-round way, reveal their true nature in all its nakedness and denounce them.

### Programmatic Tasks of Journalists of the Whole World

Angelidis Parisis, delegate of the Anti-fascist Journalist Union of the Greece, said as follows:

In his congratulatory speech Comrade Kim Il Sung set forth the programmatic tasks of the journalists of the whole world on the basis of the most correct analysis of the present international situation.

He also correctly expounded the revolutionary tasks of the peoples of small countries and their role.

During my stay in Korea I felt very keenly that the entire Korean people under the leadership of the great Leader breathe the same breath with the Greek people who are fighting against U.S. imperialism and for democracy and independence.

I support the Korean people in their struggle for the unification of the country and hope for its early realization.

### We Will Fight Energetically, Taking Upon Ourselves a Front for Wiping Out U.S. Imperialism

Homateni Kalunja, Representative of the Journalist Branch of the Southwest African People's Organization, said:

The congratulatory speech of Comrade Kim Il Sung, which gave a most correct and scientific analysis of the political situation of modern times, is a programmatic instruction lighting the path ahead of the revolutionary journalists and men of the press of the whole world.

The congratulatory speech of Comrade Kim Il Sung gives strength and courage not only to the Southwest African people who, shoulder to shoulder with the Korean people, are struggling against U.S. imperialism but also to the fighting revolutionary peoples of the world.

Though pressed hard with state affairs, Comrade Kim Il Sung who is making a great contribution to the world revolution, found time to make so a splendid speech for the revolutionary journalists and pressmen of the whole world. For this I extend heartfelt thanks to him.

In particular, Comrade Kim Il Sung in his speech said as follows: **"Though the progressive journalists of all countries in the world live under differing social systems and their party affiliations and political views, customs and religious beliefs, nationalities and colours, languages and letters are different from each other, they are comrades-in-arms who are standing on the same front with the common ideas and fighting goal of opposing U.S. imperialism for peace and democracy, national independence and social progress."**

This instruction of Comrade Kim Il Sung gives great strength to the revolutionary peoples who are directing the main spearhead against U.S. imperialism and fighting to mutilate it, and the firm conviction that the closer the unity of the peoples on the five continents as comrades-in-arms, the sooner the doom of U.S. imperialism.

### His Speech Greatly Inspires Peoples Fighting against U.S. Imperialism

Freda Brown, Vice-President of the Women's International Democratic Federation, made the following remarks:

The invaluable speech made by Comrade Kim Il Sung at the conference acquires a great significance; it is a programmatic teaching defining the sound character of the conference and its progress.

His speech is of great importance powerfully inspiring the peoples who are fighting against U.S. imperialism.

We are well aware what a great misfortune the U.S. imperialists are bringing even to the women and children.

It is my belief that the congratulatory speech of Comrade Kim Il Sung gives all the journalists from Asia, Africa and Latin America attending the Anti-U.S. World Conference of Journalists an inspiration to unfold the anti-imperialist struggle more vigorously when they return home.

(Continued from Page 1)

Speaking next, Sarath Cooray, Editor of the Ceylonese paper **Sinhale**, extended militant greetings to the revolutionary journalists and men of the press attending the conference.

As Comrade Kim Il Sung, the respected and beloved Leader of the entire Korean people and the great revolutionary teacher of the anti-imperialist forces, said in his congratulatory speech, we should struggle to write a glorious page in the annals of the struggle of the world journalists against imperialism and colonialism.

We should make this conference a powerful bomb against U.S. imperialism.

Then, referring to the international situation, he said:

We should devote all our strength and resources to the anti-imperialist, anti-U.S. struggle, the most just cause of mankind.

It is all wrong to shout only slogans against imperialism on a roof or repeat them like a parrot or cry such words as peaceful coexistence and maintenance of peace through the understanding between the East and West, not participating in earnest in the struggle against imperialism at all.

Referring to the necessity to ensure the anti-U.S. joint action, he pointed out: U.S. imperialism appears strong, but it will meet its doom, if the revolutionary peoples of all countries throughout the world pool strength to mutilate it.

Stressing that so long as U.S. imperialism remains, peace, freedom and independence are unthinkable, he said that the U.S. imperialists must be mercilessly beaten down.

Saying that the journalists must be the participants in a great struggle of our era, he emphatically called for carrying forward the immortal cause of Comrade Kim Jong Tae and other revolutionary journalists of the world who laid down their precious lives for the lofty revolutionary struggle against U.S. imperialism.

He denounced the policies of aggression and war of the U.S. imperialists against Korea. He stressed that the U.S. imperialist aggressor troops must withdraw from South Korea at once and the Korean people must be left to solve their question by themselves. The U.S. imperialists must discontinue at once all their provocative manoeuvres against the Korean people and pull out of South Korea promptly with their aggressor troops and lethal weapons, he said.

Speaking next, Jean-Emile Vidal, delegate of the French **L'Humanite**, pointed to the significant convening of the conference of world journalists in Pyongyang built into a modern city as we see today on the debris of severe destruction by the U.S. imperialists 17 years ago and extended thanks to Premier Kim Il Sung, the respected and beloved Leader of the Korean people.

Sharply denouncing the policies of aggression and war pursued by the U.S. imperialists in all parts of the world, he declared that the French journalists express active support to the world people in their struggle against the U.S. imperialist aggression.

The U.S. imperialist troops and the troops of their satellite countries should be withdrawn from

(Continued from Page 3)

South Korea, Vietnam and all other places where the U.S. imperialists are perpetrating aggression together with all their lethal weapons, he stressed.

Pointing out that the Korean Communists under the leadership of Comrade Kim Il Sung fought with arms in their hands against the Japanese imperialists for the long period of 15 years and today the Korean people are actively struggling to drive the U.S. imperialist aggressors out of South Korea and unify the fatherland, he expressed full support to it.

Stressing that all the journalists and men of the press of the world should strip naked the U.S. imperialists' policies of aggression and war, he declared that the current conference will be a great inspiration to the struggle of the journalists and men of the press of the whole world against U.S. imperialism.

Jose Ricardo Eliaschev, head of the delegation of the Argentine Federation of Press Workers, took the floor. He pointed out the revolutionary struggle of the people is mounting higher in Cuba, Vietnam and the rest of the world.

Stating that under the leadership of Comrade Kim Il Sung, the great Leader, the Korean people have fought resolutely against the U.S. imperialists and for the unification of the fatherland, he remarked: The U.S. imperialists now find themselves in desperate straits in face of the struggle of the Korean people.

Saying that a new revolutionary storm is sweeping the world, he dwelt on the anti-U.S., anti-fascist struggle of the Argentine revolutionaries and journalists.

Underscoring that it is the duty of the revolutionary journalists to make revolution, he called for promoting contact and international solidarity among the revolutionary journalists.

He stressed in conclusion that the convocation of the World Conference of Journalists against U.S. imperialism itself is a victory of the peoples and journalists against imperialism.

At the afternoon sitting, the discussion continued with V.L. Mayevski, head of the Soviet journalists' delegation, in the chair.

Thao Xon Kam Van Vong Xa, head of the Laotian journalists delegation, spoke next.

The congratulatory speech of Comrade Kim Il Sung, the respected and beloved Leader of the Korean people, at the conference, is a very precious document which clearly indicated the tasks of the peoples and journalists throughout the world struggling against the U.S. imperialist aggression, he said.

Saying that the Laotian people who are a direct victim of the bestial aggression by U.S. imperialism, are well aware what great sufferings the world people are undergoing due to the atrocities perpetrated by U.S. imperialism, the international gendarme, the common enemy of whole mankind, he expressed firm solidarity with the struggle of the Korean people who suffered from the direct aggression by U.S. imperialism.

Referring, among other things, to the struggle of the South Korean people against the moves of U.S. imperialism to provoke a new war in Korea and the manoeuvres of the Japanese militarists to stage a comeback to South Korea, he stressed: With no intrigues or manoeuvre can the U.S. imperialists stamp out the revolutionary spirit and patriotism of the South Korean people.

He expressed unreserved support to the line of the Government of the Democratic People's Republic of Korea on the independent unification of the fatherland put forth by Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

He laid bare the aggressive acts of the U.S. imperialists against Vietnam and other Asian countries, the Arab countries, and African and Latin American countries and extended solidarity with the countries in these regions in their just struggle.

Referring to the Laotian question, he pointed out that the U.S. imperialists are waging neo-colonialist war of aggression, a form of the special war, crudely violating the Geneva Agreements on Indochina and Laotian question for 15 years.

No matter how crafty and desperate the U.S. imperialists may be in their manoeuvres, they can neither bring the Laotian people to their knees nor bar their revolutionary movement nor smash their patriotic forces.

Saying that continuous development is being made in all fields in the liberated area which covers two-thirds of the territory and a half of the population, under the leadership of the Laotian Patriotic Front, he remarked: The Laotian people are ready for any sacrifice for the defence of the honour of the fatherland, national dignity and the rights to existence.

Introduced in the conference were telegrams of greetings from press organizations, international democratic organizations, international organizations and public organizations of many countries.

The conference continued till late amid the surging, militant enthusiasm of the attendants of the conference.

Taking the floor, Loumbourele Boy Bouts, delegate of the Congolese (B) journalists, noted that it is of great significance that the current conference is being held in the steadfastly anti-imperialist country, a country where the U.S. imperialists have suffered repeated crushing defeats.

Saying that this country is a bastion of the anti-imperialist struggle and has the traditions of a long-drawn revolutionary struggle, he stressed that the Korean people are prepared to defeat the U.S. imperialist aggressors.

The speaker quoted the following words of Comrade Kim Il Sung:

**"The Korean people do not want war but are never afraid of it. If the enemy forces a new war upon us, all the people will rise as one in a heroic struggle to defend the great socialist gains in the northern half of the Republic, attain the complete liberation and unification of the fatherland and safeguard peace in Asia and the world and will deal annihilating blows to the enemy."**

Then the speaker emphasized that the past 21 years of the Democratic People's Republic of Korea have been a course of the materialization of the great idea of *Juche* of the great Leader Comrade Kim Il Sung and the brilliant victory of this idea.

He demanded the withdrawal of the U.S. imperialist aggressor troops from South Korea and condemned the Pak Jung Hi puppet clique, the faithful stooges of U.S. imperialism.

Pungently denouncing the U.S. imperialist aggressors for their stepped-up aggressive manoeuvres in Africa, Asia and Latin America, the speaker extended militant encouragement to the peoples of all the fighting countries.

Saying that the aggressive manoeuvres of the imperialists headed by the U.S. imperialists must be exposed at every step, he called for solidarity among the revolutionary journalists of the whole world in the anti-U.S. struggle.

The next speaker was Mohamed Kamel Mohamed Aly Zoheiry, head of the delegation of the Press Syndicate of the U.A.R.

He said he was pleased with the proceeding of the current World Conference of Journalists against U.S. Imperialism among the heroic Korean people, because the fierce anti-imperialist struggle waged continuously by the Korean people showed to his delegation the undying example of the will, resistance and heroism of the people.

He appealed to all the progressive journalists to make every effort to enhance their role in the anti-imperialist struggle.

Recalling that the Arab people have been subjected to the plunder and oppression by imperialism, colonialism and neo-colonialism for a long time, he said: The Arab people have waged a struggle against the foreign rule of all forms.

Exposing in detail the aggressive ambition of the Israeli expansionists, he scathingly flayed the U.S. imperialists and the West German militarists who are rendering economic and military assistance to Israel and driving it out to a war of aggression against the Arab people.

Stressing that the Arab people have waged a fierce struggle against U.S. imperialism and Zionism, he expressed thanks to the socialist countries and the peoples of broad sections of the world supporting the cause of the Arab people.

He also expressed solidarity with the peoples of such fighting countries as Korea, Vietnam and Cuba in their just struggle.

In conclusion, he appealed to the world progressive journalists to unite against U.S. imperialism, Zionism and neo-colonialism and for the freedom and liberation of the oppressed peoples.

**The militant spirit reigns all over the meeting place. The speech of the head of the South Korean revolutionary pressmen's delegation has won for him the sympathies of all delegates. Here we see him receiving an enthusiastic welcome of foreign delegates. This is an expression of active support to the righteous struggle of the Korean people for chasing out the U.S. imperialists from South Korea, for completing the national-liberation revolution and for achieving the country's independent unification**

## Exhibition of Books, Photographs and Posters on Anti-Imperialist, Anti-U.S. Struggle Opens

On display in the room of works are works of genius authored by Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, great Marxist-Leninist, brilliant theoretician and one of the outstanding leaders of the international communist movement and working-class movement.

In this room of works, the visitors see "Selection of Works of Kim Il Sung," "Selected Works of Kim Il Sung" and hundreds of other books published in our country and a large number of his immortal works translated and published in different countries of the world.

Among the works on display are "Let us embody more thoroughly the revolutionary spirit of independence, self-sustenance and self-defence in all fields of state activity," works expounding in an allround way the idea of *Juche* which is the guiding idea and immovable guide of action of our Party and the Government of the Republic and other documents of Comrade Kim Il Sung, the respected and beloved Leader, who gave a scientific analysis of all the questions arising in revolution and construction, creatively applied and developed Marxism-Leninism in conformity with the condition of our country and enriched further the treasure-house of Marxism-Leninism.

In this room of works, the visitors see a large number of works containing the steadfast anti-imperialist, anti-U.S. ideas of Comrade Kim Il Sung, the respected and beloved Leader.

Delegates of various countries attending the World Conference of Journalists against U.S. Imperialism saw with deep interest these immortal works of Comrade Kim Il Sung, which are called by the world revolutionary people "brilliant beacon" and "programmatic guiding compass" illumining the road of the anti-imperialist, anti-U.S. struggle.

On show in the books exhibition room are books showing the fighting experiences accumulated by our people in the anti-Japanese armed struggle organized and waged under the leadership of Comrade Kim Il Sung and in the sacred war for crushing and wiping out the U.S. imperialist aggressors and defending the freedom and independence of the fatherland during the Fatherland Liberation War and in the anti-U.S. national-salvation struggle of the South Korean people.

Photographs and posters reflecting the anti-imperialist, anti-U.S. ideas are also displayed in the exhibition.

Among them are photographs showing the heroic deeds of our heroic People's Army and people, the inheritors of the glorious revolutionary traditions, who, under the outstanding leadership of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people and ever-victorious iron-willed brilliant commander, in the period of the Fatherland Liberation War, routed and wiped out the U.S. imperialist aggressors boastful of being the "strongest" in the world and sent them downhill never to let them rise again and photographs showing the ignominious defeat of the enemy, which prove the staunch mettle of the Korean people firmly rallied around the great Leader and show that U.S. imperialism is not a formidable enemy, but it can be certainly defeated, if the revolutionary people fight with united strength.

Also seen in the exhibition hall are photographs exposing the criminal acts committed by U.S. imperialism in Korea in more than 100 years and photographs exposing the fact that the U.S. imperialists are viciously perpetrating aggression and war manoeuvres in Korea, Vietnam, Cuba and other parts of the world, brutally suppressing and murdering innocent people and putting up the Japanese and West German militarists as the shock-brigades for realizing their foolish ambition of world domination. The photographs show clearly that U.S. imperialism is the main force of aggression and war, international gendarme, bulwark of modern colonialism, fascist butcher and the truculent enemy of mankind.

The exhibits include photographs and posters from different countries of the world depicting the Asian, African and Latin American peoples who have risen up in a decisive battle for crushing imperialism and colonialism headed by U.S. imperialism, the struggle for dealing blows to U.S. imperialism in all parts of the world and tearing off its limbs, and the vehement struggle of the working people in capitalist countries for breaking the chains of monopoly capital, and extremely delightful photographs portraying progressive journalists of the whole world with united strength cutting the windpipe of the U.S. imperialist aggressors, the common enemy, with sharp pens.

There are in the exhibition hall various photographs showing our people's active support and encouragement to the anti-imperialist, anti-U.S. struggle of the peoples of all countries in the world.

Korean postage stamps are also on show.

In the telegrams and messages, the entire journalists and editors of our country extended warm congratulations and militant greetings to the World Conference of Journalists against U.S. Imperialism and the representatives of anti-imperialist journalists and men of the press of five continents of the world present at this conference and other foreign friends attending it.

The telegrams and messages said that the World Conference of Journalists against U.S. Imperialism will deal a powerful blow to U.S. imperialism, the chieftain of aggression and war and the most heinous enemy of peace and mankind, and give a great inspiration to the revolutionary people of the world fighting against the U.S. imperialists' colonial enslavement policy and new war provocation manoeuvres and for peace, democracy, national independence and socialism and make a great contribution to strengthening the unity and solidarity among the anti-imperialist journalists of the world.

And they said the current conference will be a great encouragement to the Korean people who, upholding the wise leadership of Comrade Kim Il Sung, the great Leader, are accelerating with greater vigor economic construction and defence upbuilding in face of the frantic new war provocation manoeuvres of U.S. imperialism and fighting for the complete victory of socialism and the independent, peaceful unification of the fatherland.

The telegrams and messages expressed the belief that the current World Conference of Journalists against U.S. Imperialism will be a rostrum condemning U.S. imperialism, a militant conference practically contributing to strengthening the anti-U.S., united front and the anti-U.S. joint action, holding higher the pen of anti-U.S. struggle and will greatly help toward strengthening the unity of the anti-imperialist journalists.

The telegrams and messages expressed the conviction that the current World Conference of Journalists against U.S. Imperialism will successfully carry out the weighty tasks assigned it and sincerely hoped for a great success in the work of the conference.

### From Revolutionary Organizations of Many Countries and Central Standing Committee of CHONGRYUN and Organizations under It

Telegrams greeting the International Conference on the Tasks of Journalists of the Whole World in Their Fight against the Aggression of U.S. Imperialism now in session in Korea came from the Mission of the People's Liberation Movement of Angola in the Congo (B), Yasir Arafat, Chairman of the Executive Committee of the Palestine Liberation Organization, the General Headquarters of the People's Front for Liberation of the Occupied Arabs Gulf and the Central Standing Committee of CHONGRYUN (The General Association of Korean Residents in Japan) and organizations under it.

In its telegram, the Mission of the People's Liberation Movement of Angola in the Congo (B) warmly welcomed the Anti-U.S. World Conference of Journalists. The telegram expressed the hope that the conference would be a meeting of mutilating U.S. imperialism and dropping a bomb on it, as was taught by Comrade Kim Il Sung, the great Leader of the 40 million Korean people, staunch anti-imperialist, anti-U.S. fighter and great Leader of revolution.

A congratulatory telegram from the General Headquarters of the People's Front for Liberation of the Occupied Arabs Gulf pointed out that U.S. imperialism is the most barbarous and shameless aggressor of the modern times.

The telegram quoted the following teaching of Comrade Kim Il Sung, the great Leader of the 40 million Korean people: **"The peoples of all countries making revolution should tear limbs off the U.S. beast and behead it all over the world. The U.S. imperialists appear to be strong, but when the peoples of many countries attack them from all sides and join in mutilating them in that way, they will become impotent and bite the dust in the end."**

In conclusion the telegram sincerely hoped that the Korean people would chase all foreign troops out of South Korea and realize the unification of the North and the South by themselves independently without any interference from outside forces on democratic principles, along the line on the unification of the fatherland set forth by Comrade Kim Il Sung.

The Central Standing Committee of CHONGRYUN, in its congratulatory telegram, sincerely wished the conference great success in intensifying the anti-imperialist, anti-U.S. struggle of the journalists and men of the press of the whole world and encouraging the struggle of the world people.

# More Modern Houses Are Rising Up in the Countryside

In accordance with the far-reaching plan of the fatherly Leader Comrade Kim Il Sung for providing our people with well-appointed modern houses, new houses are now mushrooming in our country.

In our country huge state funds go to housing construction every year. Last year 1.7 times more houses were built for the urban and rural population than in the previous year.

In recent five years modern houses for 197,000 households plus a large number of cultural and welfare facilities were built in our countryside at the state expense.

In order to fulfil the tasks set forth by Comrade Kim Il Sung in his **"Theses on the Socialist Rural Question in Our Country"** a large-scale housing construction is now under way in our countryside.

The housing construction plans for this year are nearing completion in many localities.

The yearly housing construction plan had been fulfiled by the end of August in Kangryong county of South Hwanghae Province and the co-operative farmers there are now moving into new houses.

They are deeply grateful to the fatherly Leader Comrade Kim Il Sung who has freed them from exploitation and oppression once and for all, made them the genuine masters of the socialist countryside, authored the **"Theses on the Socialist Rural Question in Our Country"** for them and always leads them to victory and happiness, and they are now full of a firm resolve to be infinitely true to him.

A vigorous struggle was unfolded in Kangryong county last year.

In order to make the peasants enjoy the great solicitude of the fatherly Leader as soon as possible, the County Party Committee intensified its guidance of the county co-operative farm management committee, the rural construction corps and other organs concerned, giving precedence to the political and organizational work.

To accelerate the construction speed the construction workers in the county who had experienced the warm solicitude of the Leader through their actual life tided over the bottlenecks and difficulties they met with in the course of their work in the revolutionary spirit of self-reliance—finding out what they did not have and making what were in short supply.

They had to conduct construction work in scores of scattered villages. So they made extensive use of local materials to lighten the burden of transport. And they made effective use of sea transport in conformity with the geographical conditions.

The first rural construction brigade in Kangryong county turned to good account local materials such as stones for floor heating and pulverized stones, and thus lightened the burden of transport and increased the construction tempo considerably.

The second rural construction brigade carried by boat 5-6 times as much materials as by lorry.

In Tongchon county of Kangwon Province, a large number of modern houses have been already built and villages have turned into cultured ones. In this county modern houses for more than 1,700 families will be built this year at the state expense.

To repay the great solicitude of the Leader for the building of a modern socialist countryside the workers in the field of construction and the farmers in the county are using local materials extensively to save as much the materials provided by the state as possible.

Besides, they are speeding up the construction tempo by giving precedence to the designing and making effective use of means of transport, manpower and local materials.

Saying that the construction speed can be increased only by carrying on the production of blocks ahead of other work, the workers of the block production team turn out 900 blocks in each shift. Wood-workers have mechanized the process of making door-frames and doors and streamlined their work, and thus increased their work speed and improved the quality of the products.

The workers of the timber-sawing team also raise their work efficiency more than 1.5 times than before in each shift and are striving to minimize the waste of wood.

Thanks to the intensified labour struggle of the construction workers and the entire co-op farmers in the county, more co-op farmers in Tongchon county will soon be provided with well-appointed modern houses.

# Another Bumper Year Has Come to the Yoldusamchon-ri Plain

The agricultural situation of Sukchon county honoured with the title of Guard the First Class is very good as everywhere in our country.

Rice crop conditions of the plain from the west coast to the terminal of the Pyongnam Irrigation System are very fine.

According to the old man named Kim Won Gap of the Chil-ri co-operative farm who was born in the Yoldusamchon-ri Plain and lived there for 60 years, rice crop conditions have never been so good all over the plain as this year. The Chil-ri co-operative farmers produced more than 6 tons of rice per *jongbo* last year and received the gift from the fatherly Leader Comrade Kim Il Sung. This year they have striven hard to increase grain yield and return his solicitude. This year's per-*jongbo* rice yield is estimated to be 7 tons at this farm.

Per-*jongbo* rice yield is expected to increase 1 to 1.5 tons at Sasan, Kwangchon and Chandong-ri villages.

It will average 6 tons at the Sangun-ri village called a "village in the depth of mountains" in Sukchon.

The rice crop of the Songnam co-operative farm is especially excellent. More than 8 tons of rice per *jongbo* are expected on this farm. The farm standardized more than 120 *jongbo* of paddy fields in early spring and effectively used machines, fertilizers and water, and made their farming easy.

Shin Jae Ho, farmer of 4th fieldteam said that his fieldteam is sure to gather 8 tons of rice on an average per *jongbo* this year.

Feeling satisfied with the richest-ever rice crop that visited Sukchon county, I dropped in at the county co-operative farm management committee. There I saw the graphs showing the growth of grain yield in the county for years and got an idea of the rapid development of the county's agriculture.

The grain output of Sukchon county grew 18 per cent in 1962, 31 per cent in 1963 and 51 per cent in 1964, compared with 1960. Last year the county increased the per-*jongbo* yield 1.5 tons on an average despite heavy drought and produced 110,000 tons of grain.

This year the per-*jongbo* yield will increase another 1.5 tons.

The rapid growth of agricultural production and this year's rich crop in the county owe to the on-the-spot guidance Comrade Kim Il Sung gave many times and the thorough implementation of the **"Theses on the Socialist Rural Question in Our Country,"** his great agricultural programme.

The successes in Sukchon county show that our agricultural production, like industrial production, develops at a steady, high rate in accordance with the law of socialist economic development, free from the influence of climate or any other natural condition.

**Pak Hae Chon**

**This year promises a good harvest, too. It is a reward for the co-op farmers' strenuous efforts in the implementation of the teachings of the respected and beloved Leader**

# Broad Public Circles of South Korea Raise Voices Opposing and Rejecting Long-Term "Office" Scheme of Pak Jung Hi Puppet Clique

Today when the youth and students under the banner of anti-fascistization and democratization are unfolding a vigorous struggle to frustrate the machinations of the U.S. imperialists and the Pak Jung Hi puppet clique for prolonging their military fascist terror rule, broad public circles of South Korea are also lifting up their voices in opposition to and in denunciation of the criminal long-term "office" scheme of the scoundrels.

On September 16 a youth organization of South Korea laid bare and scathingly lashed at the abominableness of the Pak Jung Hi puppet clique who stop at nothing for realising their avaricious desire for a longer stay in power, according to a press report from Seoul.

And it expressed its determination to fight resolutely to thoroughly foil the despicable machination to "amend the constitution for the third-term election" and called upon the people to actively join in this righteous struggle.

Meanwhile, a South Korean religious organization issued a statement on the 18th and strongly condemned the ridiculous farce of the traitorous Pak Jung Hi bandits who, closeted together at midnight, rammed through the "national assembly" by fraud the so-called "bill on the constitutional amendment for the third-term election" and "bill on national referendum."

It declared "null and void the bill on the constitutional amendment for the third-term election" and the "bill on national referendum" and strongly demanded the Pak Jung Hi puppet outfit to "nullify the passed bill on the constitutional amendment and apologize to the masses of the people." And it held that a powerful "resistance campaign" should be unfolded against the military fascist dictatorship and fraudulence of the Pak Jung Hi puppet clique.

In particular, broad sections of South Korean people are unanimously indignant at the fact that the Pak Jung Hi puppet clique railroaded the "bill on the constitutional amendment" through the "national assembly" by fraud.

A Seoul citizen denounced the fraudulent acts of the Pak Jung Hi puppet clique, saying: The "constitutional amendment itself is hard to understand and the method of voting is totally unlawful."

On the 16th a man living in Daehung-dong, Taejon, South Chungchong Province, went from house to house with band bearing the letters "I am dead set against the constitutional amendment for the third-term election" around his waist and called upon the people to rise up in the struggle.

Voices of denunciation of the South Korean people opposing the long-term "office" scheme of the Pak Jung Hi puppet clique are rising higher day by day, causing ever growing uneasiness and fear in the minds of the enemies.

# Sentries of Heroic Korean People's Army Resolutely Smash Military Provocation of U.S. Imperialist Aggressor Troops

The U.S. imperialist aggressor troops who had been engrossed in military provocations almost every day along the Military Demarcation Line brought on the 20th quantities of heavy weapons including tanks into the Demilitarized Zone and committed the vicious provocative act of firing from about 18:00 hundreds of bullets and shells into the portion of our side in the Demilitarized Zone southeast of Mt. Osong in the central sector of the front.

In face of the vicious provocation of the enemy, sentries of the heroic Korean People's Army took a prompt counter-measure and completely frustrated their provocative attempt.

The U.S. imperialist aggressors must not run riot. If the U.S. imperialist aggressors persist in indiscreet provocative acts in future, too, they will be meted out a deserving punishment by the Korean people.

**Many Delegates to the 24th U.N. General Assembly Session**

# Denounce at General Committee Meeting U.S. Imperialists Who Brought Up "Korean Question" for Discussion

The U.S. imperialist aggressors, the sworn enemy of the Korean people, are working hard to put the "Korean question" on the agenda and have a debate on it on the basis of the so-called "report" of the "U.N. Commission for the Unification and Rehabilitation of Korea" at the 24th U.N. General Assembly Session which opened on September 16 in New York, according to foreign news dispatches from New York.

As was already reported, a number of socialist countries and national independent countries of Asia and Africa proposed to put on the agenda as separate items "The question of the withdrawal of U.S. troops and all other foreign troops occupying South Korea under the U.N. flag" and "The question of the dissolution of the 'U.N. Commission for the Unification and Rehabilitation of Korea'," an aggressive tool of the U.S. imperialists, condemning the illegal discussion of the "Korean question" in the U.N. which has been a shameful annual event for the past 20 years and more under the coercion of U.S. imperialism.

In the discussion of the agenda, the U.S. imperialists, ignoring the just demand of socialist countries and Asian and African countries, resorted again to a brazen-faced act to put as one item, the so-called "Korean question," "The question of the withdrawal of U.S. troops and all other foreign troops occupying South Korea under the U.N. flag," "The question of the dissolution of the U.N. Commission for the Unification and Rehabilitation of Korea," an aggressive tool of U.S. imperialism, together with the "report of the U.N. Commission for the Unification and Rehabilitation of Korea" full of falsity and fabrication. This criminal move of the bandits evoked strong denunciation at the meeting.

Speaking at the General Committee Meeting of the 24th U.N. General Assembly Session on September 17, Soviet Ambassador Malik denounced the U.S. imperialists' move to put on the agenda the "Korean question" on the basis of the so-called "report of the U.N. Commission for the Unification and Rehabilitation of Korea." He said: The existence of the "UNCURK" and discussion of the "report" at the past U.N. General Assembly sessions were aimed at justifying the occupation of South Korea by the foreign troops, perpetuating the division of Korea and covering up the occupation of South Korea by the foreign troops under the signboard of "peace-keeping operations of the U.N." The United Nations should take a new attitude to this question and it is time that the U.N. should pay a proper attention to the proposal of a large majority of countries for putting an end to the imperialist powers' interference in the internal affairs of the Korean people, Soviet Ambassador Malik emphasized.

The Polish and Mongolian Ambassadors in their speeches held that "the question of the withdrawal of U.S. troops and all other foreign troops occupying South Korea under the U.N. flag" and "the question of the dissolution of the U.N. Commission for the Unification and Rehabilitation of Korea," should be put on the agenda as separate items and castigated the criminal move of the U.S. imperialists to debate as one item, the so-called "Korean question," the above-mentioned questions together with the "report" fabricated by the "UNCURK," an aggressive tool of U.S. imperialism.

The U.S. imperialists, however, committed again the criminal act of passing their malicious "proposal" including the above mentioned question in the agenda as a single item, the so-called "Korean question," by mobilizing such hand-raising machines as the British imperialists and the Greek reactionaries.

They also doggedly opposed the just proposal of the Soviet delegate that once the question in Korea has been put on the agenda of the U.N. General Assembly Session, the representative of the Democratic People's Republic of Korea, the direct party concerned, be invited without any condition.

As is well known, the question of Korea's unification is an internal affair of the nation, which should be settled by the Korean people themselves and is not a question to be settled by coercion or interference of the U.N. or other outside forces.

But, the U.S. imperialists forced the discussion of the so-called "Korean question" on the U.N. General Assembly again at its 24th session. This is designed to cover up their vicious policies of aggression and war against Korea under the U.N. signboard.

This criminal act revealed in all nakedness the heinous and dirty nature of U.S. imperialism as the very one obstructing the unification of Korea and the sworn enemy of the Korean people.

# We Extend Militant Solidarity to the Puerto Rican People's Struggle

The Asian, African and Latin American People's Solidarity Conference held in Havana in 1966 decided to mark September 23 as the "day of solidarity with the Puerto Rican people."

On this day, the Korean people express firm solidarity with the Puerto Rican people in their stubborn struggle against the U.S. imperialist aggressors.

The Puerto Rican people's struggle is a most righteous struggle for the liberation of the country and national independence and against the colonial domination of the U.S. imperialist aggressors who have long exploited and oppressed ruthlessly the people of this country.

The U.S. imperialist aggressors, covetous of the strategic position and rich resources of Puerto Rico, occupied her and began to rule her illegally in 1898.

The atrocious and cunning U.S. imperialists not only have plundered the country cruelly but also converted this small island country in the Caribbean Sea into their military and supply base for the invasion of Cuba and other Latin American countries. This brings untold calamities upon the Puerto Rican people.

U.S. imperialism is intensifying fascist repression in this country to stamp out the struggle of the people against its colonial rule.

Comrade Kim Il Sung, the respected and beloved Leader of our people, said as follows:

**"It is obvious that unless the ill-clad and hungry, oppressed and humiliated people in Latin America bravely rise in arms in the struggle against the oppressors, they cannot attain freedom and liberation."** ("Great Anti-Imperialist Revolutionary Cause of Asian, African and Latin American Peoples Is Invincible," p. 11.)

The people of Puerto Rico, unable to stand illegal occupation of U.S. imperialism and its heinous policy of colonial enslavement, are unfolding a resolute struggle to beat down U.S. imperialism and to gain the liberation and independence of their country.

The country-wide armed uprising of Puerto Rican patriots in October, 1950 struck a heavy blow at U.S. imperialism and its lackeys internal reactionary forces.

After that the struggle of the Puerto Rican people against the colonial control of U.S. imperialism has continued in various forms of riot, mass meeting and street demonstration, etc. In recent years in particular the Puerto Rican people have been giving terrible blows to the U.S. imperialist aggressors everywhere with arms in their hands under the militant slogan "Fatherland or death!"

The just struggle of the Puerto Rican people for the liberation and independence of the country constitutes a great contribution to the Latin American people's struggle against U.S. imperialism and dictatorship. It commands enthusiastic support from the Latin American peoples as well as the world revolutionary people of broad sections.

The Korean people will, in the future too, as in the past, extend full solidarity to the just struggle of the Puerto Rican people against U.S. imperialism and for the liberation and independence of the country.

We are convinced that the people of Puerto Rico will attain greater victory by keeping up their valiant struggle.

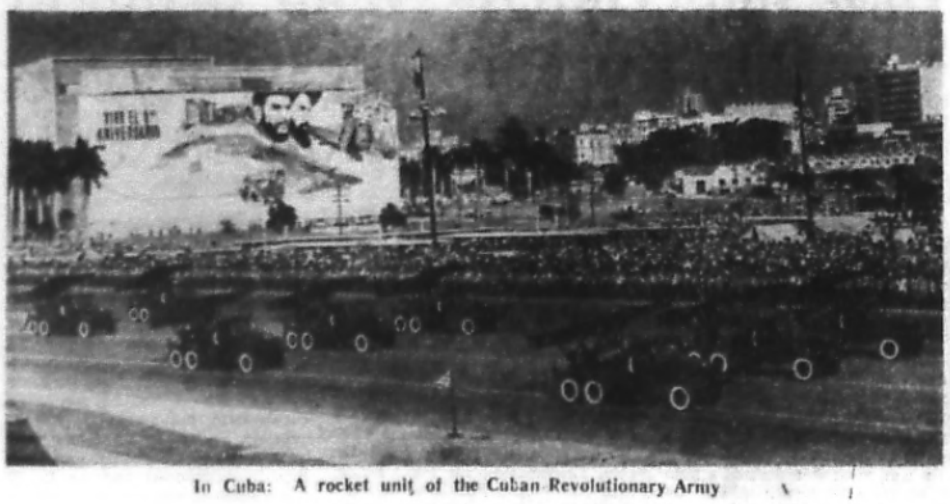
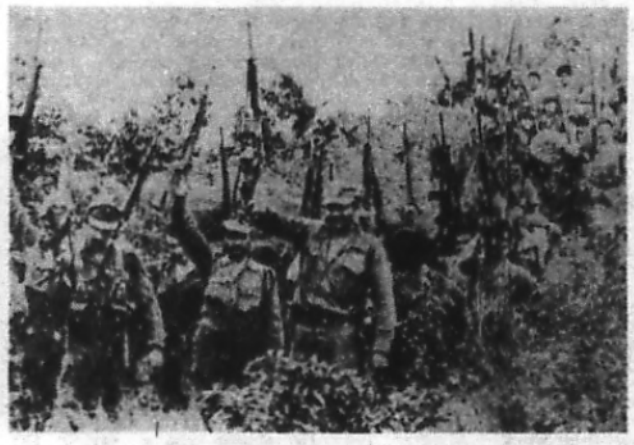
# U.S. IMPERIALISTS ARE LIMBED EVERYWHERE IN THE WORLD



In Cuba: A rocket unit of the Cuban Revolutionary Army



In Venezuela: The guerillas after a victorious battle with the army-men of pro-American puppet regime

## In Latin America

Today Latin America is a front of the most furious anti-U.S. struggle in the world like Asia and Africa.

The aggressive manoeuvres of U.S. imperialism are being frustrated and its colonial ruling system is fast falling apart in this continent in the face of the struggle of the Cuban people who overthrew the dictatorial regime of Batista, the faithful running dog of U.S. imperialism, and won victory in the revolution and the daily mounting liberation struggle of the Latin American peoples.

The triumphant Cuban people are safeguarding with honour their motherland and the gains of the revolution and are vigorously pushing ahead with the revolution and socialist construction, holding aloft the banner of anti-imperialist, anti-U.S. struggle and repelling the armed aggression of the U.S. imperialists against Cuba and their political and economic pressure, under the militant slogan "Motherland or death! We will win!"

The peoples of Venezuela, Colombia, Guatemala, Dominica and Peru are unfolding a valiant armed struggle against U.S. imperialism and the reactionary dictatorial regimes. They are switching over to large-scale operations, expanding their armed struggle from forests and villages to towns.

The guerillas of Bolivia have regrouped their ranks and are waging a vigorous armed struggle.

The patriots of Puerto Rico, Brazil, Chile, Nicaragua and Argentina and other Latin American countries are entering upon the path of armed struggle.

Workers, peasants, youth and students are unfolding mass struggles for the right to live and freedom and against the aggressive policy of U.S. imperialism and the anti-popular policy of the pro-U.S. dictatorial regimes.

The powerful anti-U.S., anti-dictatorship struggle of the Latin American peoples has been further intensified particularly recently when U.S. imperialist vampire Rockfeller crept into Latin American countries as a "special envoy" of Nixon, the boss of U.S. imperialism.

Angry people assaulted and destroyed the aggressive tools of U.S. imperialism such as "embassies," "information services," "military missions" and "USOMs," tore to pieces the U.S. flags and rained stones on Rockfeller, the uninvited guest, everywhere in Latin America, shouting: "U.S. imperialists, go home!" "Rockfeller, return to your nest!" and "Strike out Yankees!"

U.S. imperialism has regarded Latin America as its hereditary dominion for long and it had its own way there. But today this continent is not a "peaceful backyard" for it. There U.S. imperialism is in a scrape in face of the powerful anti-U.S. struggle of the Latin American peoples.

In the Dominican Republic: The Dominican women stage a powerful anti-U.S. demonstration in Santo Domingo

In Guatemala: The guerillas intensifying their armed struggle to overthrow U.S. imperialism and pro-American dictatorial regime

In Bolivia: The Bolivian people burning the U.S. "Stars and Stripes," symbolic of aggression

In Colombia: The guerillas giving a good drubbing to the puppet army of the pro-American dictatorial regime

## Korean Compatriots, Youth and Students under "Mindan" in Japan Rise in Struggle to Upset Long-term "Office" Scheme of Pak Jung Hi Military Gang, Foul Hound of U.S. Imperialism

The mean and despicable criminal action of the traitorous Pak Jung Hi bandits who rammed the "constitutional amendment for the third-term election" framed up under the direct baton of U.S. imperialism through the puppet national assembly by fraud at midnight on September 14 has touched off an unbearable indignation and anger among the compatriots, youth and students affiliated to the "Mindan" (Korean Residents Association in Japan under the influence of the South Korean puppet regime), letting them rise in the struggle for upsetting the long-term "office" scheme of the villains.

According to foreign news dispatches, on the 15th more than 50 youth and students under the influence of "Mindan" thronged the South Korean puppet "embassy" in Tokyo in protest against the fraudulent "passage of the constitutional amendment" aimed at the extension of the U.S. imperialist colonial rule and the long-term "assumption of power" of the Pak Jung Hi puppet clique, and there they detained three of the "embassy" guards.

Carrying the streamer with the words flaying the criminal deed of the Pak Jung Hi military scamps, the students stormed to the puppet "embassy" like angry billows around 13:30, pushed open the locked gate and repeatedly shouted the slogans condemning the crimes of the scamps, it was reported.

Prior to this, cadres of "Mindan," too, came out against the long-term "office" scheme of the Pak Jung Hi puppet clique, faithful stooge of U.S. imperialism.

Functionaries of "Mindan"—former chairmen and secretary-generals of its central headquarters and other personages—formed the "struggle committee of South Koreans in Japan against the constitutional amendment for the third-term election" and decided to unfold an extensive struggle.

The struggle committee had an interview with Korean and foreign reporters in Tokyo on September 9 and issued a statement affirming its determination to fight against the "constitutional amendment."

Pointing out that the "constitutional amendment for the third-term election" of the Pak Jung Hi puppet clique "is a historical blemish," the statement declared that the "patriotic compatriots in Japan should actively oppose the constitutional amendment for the third-term election designed for a perpetual 'assumption of power' and wage a thoroughgoing struggle against it until its cancellation."
